It was first launched in 2007 and, like other entries in the franchise, allows players to use a plastic, guitar-shaped controller to simulate playing various rock songs by hitting colored notes as they scroll through the screen. It has cheated codes that allow you to unlock everything without breaking a sweat. We list them below. You can enter cheat codes through the main menu. Each letter in the following codes represents buttons on the guitar controller: G for the green button, R for the red button, Y for yellow, B for blue, and O for orange.
